

Special Needs Library Hour & Sensory Storytime

Every Second Saturday from 9:00-10:00 AM

Join us every second Saturday for a special hour of library time designed to accommodate our patrons with special needs. We will open our doors an hour early so that you will have a warm and welcoming environment designed just for you! Browse the library, check out your favorite books, movies, and CDs, and participate in our special Sensory Storytime, which is specifically designed for children with special needs.

Registration is not required for this program. Please contact Hampton Park Library if you have any questions, 770-781-9840 ext. 6709.

Please note: The library will be open early for patrons with special needs and their families. If you or your family do not meet these requirements, please visit us during our normal operating hours. Thank you for your understanding.
