

What is Mango Languages?

Mango is an online language learning system available to you through your local public library. Mango offers access to 70+ foreign language courses and 19 English courses taught completely in the user's native language.

Each lesson combines real life situations and audio from native speakers with simple, clear instructions. The courses focus on 4 key elements of language learning: vocabulary, pronunciation, grammar, and culture.

Mango Languages offers multiple courses in some languages like Russian or Spanish. Spanish courses are offered on how to use the language in a legal, text talk, medical or romance scenario.
