Books and Materials

Composting for a new generation: latest techniques for the bin and beyond
by Michelle Balz
Including tried-and-true composting methods as well as new, innovative techniques—including vermicomposting, integrated composting and in-vessel composting techniques—a full-color guide also includes chapters on the science of composting and harvesting compost, a reference list, and composting recipes.

The Rodale Book of Composting: Simple Methods to Improve Your Soil, Recycle Waste, Grow Healthier Plants, and Create an Earth-friendly Garden
by Grace Gershuny
The most significant gardening topic of today is covered in this completely revised and updated volume. The essential guide to composting for all gardeners and environmentally conscious people.

How to build, maintain, and use a compost system: secrets and techniques you need to know to grow the best vegetables
by Kelly M. Smith
Some of the best fertilizer on the planet can be made with your very own garbage. Starting with something as simple as coffee grounds a top composting product and old banana peels, bread crusts, and left over vegetables.

Compost City: Practical Composting Knowledge for Small-space Living
by Rebecca Louie
Urban composters are part of a bumper crop of pioneers who are redefining the green space of crowded towns and cities. You may think you need a big yard to compost. Think again. Compost City teaches you how to easily choose and care for a compost system that fits perfectly into your (tiny) space, (busy) schedule, and (multifaceted) lifestyle.

Online Library Resources
