VICTORIA AVEYARD

RED  
QUEEN

POWER IS A DANGEROUS GAME

The book *Red Queen* by Victoria Aveyard is perfect for all dystopian society lovers! I would definitely recommend this book to all of those who love a suspenseful plot full of many twists, turns, and betrayals! This book will leave you on the edge of each page! *Red Queen* is about 17-year old Mare Barrow, whose world is separated by the color of your blood, those with Red and those with Silver. Reds are the lowly, average people who live in villages while the Silvers are the elite with powers and luxury. Mare is about to be conscripted into the battle when she turns 18, as her 3 brothers were, but her fate twists unexpectedly when she meets a stranger who is not who he seems to be and gets her a job as a servant at the palace. From there, Mare ends up betrothed to a prince (I know, that seems random, but it's important...) and realizes that she is not a normal Red. Mare has to pretend to be a lost Silver princess because the Crown could be brought down if the public finds out what Mare's real strength is...Will Mare Barrow betray her people and join the worldly class of Silvers, or will she fight for her blood, the Reds who raised and suffered for her?
