

# Child Care Delivery Service

## What is Child Care Delivery Service?

The Child Care Delivery Service is a free service that supplies childcare providers and preschools with a variety of library materials. Child care providers must be registered with the City of Watertown and located within city limits.

Once a month, library staff will deliver new materials to child care providers and pick up items to be returned. Materials include board books and picture books which will be selected by a staff member of the library.

Regular fees will apply for any lost or damaged materials.
