

Teen Book Reviews

Shuri

by Nic Stone

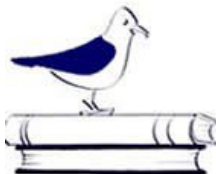

Genre: Fantasy (e-book)

Summary: Shuri, the Princess of Wakanda, is having trouble conforming to what her mother says her royal duties are. Rather than dress up and be pretty, she'd rather be working on new inventions in her lab. However, when an infection begins ravaging the nation's sacred plants, she and her friend K'Marah are the only ones who are willing to get to the heart of the mystery. Will she be able to figure out the cause of the problem and save what little is left of the plants before it is too late? The book has a good narrative flow, although it also has a bit of an abrupt ending. Despite this, I would say this is still a book worth reading. I would recommend this book to most marvel fans, especially those that are fans of Black

Panther because this book dives deeper into the story of Wakanda.

Rating: 4 out of 5
