

Teen Book Reviews

City spies

by James Ponti

Genre: Mystery (ebook)

Summary: Sara Martinez, a 12 year old hacker, has been bounced between foster homes her whole life. After hacking several banks and the Juvenile justice system to expose her corrupt foster parents, she faced a possibility of years in jail - and loss of access to all computers. However, a mysterious man offers her an alternative: join his team of spies, and help them stop a terrorist cell. Can she work with her new teammates to successfully stop Umbra before it's too late? This narrative had a pretty good plot flow, although it did feel a little rushed towards the end. However, the story more than makes up for this flaw. I feel like this is a pretty good book, and that most teens would enjoy it. I would recommend this book to any teen who enjoys mystery and action fiction.

Rating: 4 out of 5
