Where I End & You Begin by Preston Norton

Genre: Romance (ebook)

Summary: Ezra Slevin is a nervous teenage boy who is in love with Imogen Klutz but is nervous to ask her to prom because her best friend, Wynonna Jones is his sworn enemy who's bullied him for years. Ezra confides in his best friend, Holden, about his feelings for Imogen and wanting to ask her to junior prom. With Holdens help, Ezra is convinced and feels ready to ask Imogen. But there's a problem, the night of the solar eclipse, Ezra and Wynonna switch bodies and find themselves stuck in a pattern of constantly switching back and forth. Both parties are confused and a wreck once they realize the switches may never end. But as the story goes on, they find themselves learning secrets about each

other and themselves. Maybe this switch was something they needed all along and something they don't want to end. I wasn't expecting it to be a queer awakening novel so to find out the characters explore being gender fluid and their sexuality it's a nice surprise and a fun take on discovering yourself.
