Permission to Feel: Unlocking the Power of Emotions to Help Our Kids, Ourselves, and Our Society Thrive
By Marc A. Brackett

Marc Brackett, founding director of the Yale Center for Emotional Intelligence, has developed a remarkably effective plan to improve the lives of children and adults—a blueprint for understanding our emotions and using them wisely so that they help, rather than hinder, our success and well-being. His prescription for healthy children (and their parents, teachers, and schools) is a system called RULER, a high-impact and fast-effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is the culmination of Marc’s development of RULER and his way to share the strategies and skills with readers around the world. It is tested, and it works.

Light it Up By Nicholas Petrie

Combat veteran Peter Ash leaves a simple life rebuilding hiking trails in Oregon to help his good friend Henry Nygaard, whose daughter runs a Denver security company that protects cash-rich cannabis entrepreneurs from modern-day highwaymen. Henry’s son-in-law and the company’s operations manager were carrying a large sum of client money when their vehicle vanished without a trace, leaving Henry’s daughter and her company vulnerable.

After finding himself on the defensive for too long, Peter marshals his resources and begins to dig for the truth in a scheme that is bigger—and far more lucrative—than he’d ever anticipated. With so much on the line, his enemy will not give up quietly...and now he has Peter directly in his sights.
