

# Spring

## Sing!

Tune: Twinkle, Twinkle  
Flutter, flutter butterfly (shake)  
Floating in the spring sky (lift)

Floating by for all to see (lift)  
Floating by so merrily (float down)

Flutter, flutter butterfly (shake)  
Floating in the spring sky (lift)

## Play!

### Bedsheet Parachute

Use a sheet or blanket as a play time parachute. Try shaking, lifting, and floating the parachute while you sing together!

## Write!

Did you know doing fingerplays with your child helps to build the muscles in their hands that are needed to grip a pencil and learn to write? Hold up a hand and try this one together!

Five spring flowers, all in a row.  
The first one said, "We need rain to grow!"  
The second one said, "Oh my, we need water!"  
The third one said, "Yes, it is getting hotter!"  
The fourth one said, "I see clouds in the sky."  
The fifth one said, "I wonder why?"

Then BOOM [clap loudly] went the thunder,  
And ZAP went the lightning!  
That springtime storm was really frightening!  
But the flowers weren't scared - No, no, no!  
The rain helped them to grow, grow, grow!

## Make!

### Nature Prints on Play Dough

Go on a Spring walk and collect nature treasures such as leaves, flowers, sticks, and rocks. When you get home, try making prints on play dough by pushing your treasures into the dough and seeing what pattern is left behind!
